

# Engineering

For innovators in technology, manufacturing and management

## Engineering 2018 Yearbook

**Double page spread editorial entry £595**

**(SAVE! - book by 4th December and the entry rate is £295)**

Published January 2018

Each entry consists of a double page spread and offers a great platform to express your company's message to the market.

The standard rate card for the double page editorial entry is £595 (but you can get the special early booking rate of £295 if you reserve your entry before 4th December 2017). Our journalists are available to assist with preparing your entry if required.

The rate includes not only your entry in the print Yearbook, but also in the digital edition, which will be hosted on the energy engineering website throughout 2018 and is perfect for social media tie-in etc. We will also provide pdfs of the spread for your own marketing

use. Additionally, the print edition will also be distributed at key conferences and exhibitions we will be attending throughout the year.

To secure your place in the Engineering 2018 Yearbook please complete the form below and we will get back with deadlines and what we need in terms of text, images etc.
